FISCAL IMPACT

The bill would restore \$2,006,200 of FY 2017-18 Gross and GF/GP State appropriations that had been part of the legislatively approved FY 2017-18 budget, but were vetoed by the Governor. In addition to the restored funds, there are new FY 2017-18 Gross and GF/GP appropriations of \$6,750,100: a \$100 construction authorization for Western Michigan University's School of Aviation renovation; \$1.0 million for the Department of Environmental Quality's vapor intrusion program; \$750,000 for the Department of Health and Human Services' Statewide double-up food bucks program; and \$5.0 million in the Department of State for local voting machines.

The bill would provide \$2.3 million of additional Federal and local funding for FY 2016-17 for the Department of Military and Veterans Affairs. The \$4.3 million FY 2016-17 appropriation for the Department of Treasury would not be funded from new revenue but would reallocate funds from unspent tax processing and information technology appropriations from prior fiscal years. Table 2 summarizes the details of the appropriations in this bill.
