HANDICAPPED PARKING SPACES ENFORCEMENT

Bill/Sponsor **HOUSE BILL 4707 As Reported, Rep. Joanne Voorhees**

House Committee Transportation

Analysis

Summary

HB 4707 would amend the Michigan vehicle code to give additional authority to volunteers to issue citations to violators who illegally park in the access aisle adjacent to the handicapped parking space.

Under the current law, volunteers, established through a government program, can issue citations for violating two provisions of the code: 1) when a violator parks in a parking space clearly defined by an official sign as being reserved for use by disabled people if the space is on public property, or on private property available for public use; and 2) when a violator parks in a place that blocks access to a space clearly designated as a fire lane.

Fiscal Impact

There is no apparent fiscal impact.
