### SUMMARY:

House Bill 5394 would amend the Public Health Code to require the secretary of state to forward an individual's driver's license or state personal identification card number to an organ procurement organization (or its successor organization) in cases where an individual who indicated a willingness to be placed on the registry on their individual income tax return did not provide the number.

Currently, an individual is able to indicate a willingness to be included on the anatomical gift registry on a form<sup>1</sup> that can be submitted with their state individual income tax return. If an individual indicates a willingness to be included, the Department of Treasury is required to transmit the form to the secretary of state.

Under the bill, if the information submitted by the individual does not include their driver's license or state personal identification card number, the secretary of state would be required to provide that information to the organ procurement organization or its successor organization directly.

MCL 333.10120

### FISCAL IMPACT:

The bill would have no fiscal impact on the state or local units of government.
